

✓ Google Analytics paigaldus Wordpress lehele

Kasutasin [seda](#) õpetaja antud juhendit Google Analytics paigaldamiseks.

Tegin kooli gmailiga Analytics kasutaja. Veebileheks valisin CPaneli paigaldatud Wordpressi lehe, kuhu tegin praktikale kandideerimise portfoolio.

Analüüsisimeks valisin MonsterInsights plugina, mille installisime ja seadistamise juhendi pakkus mulle Google Analytics leht Google Tag seadistamise all. Sarnane juhend oli ka leheküljel, mida kasutasin Google Analytics paigaldamisel. Kogu see protsess võttis umbes 30-40 minutit aega ning kuna töö protsess on antud juhendi materjalis üks ühele minu seadistamise protsessiga, ei teinud ma eriti palju kuvatõmmiseid.

Oleme Henno tunnis selle kõik katse eksitus meetodil läbi teinud, nii et Google Analytics paigaldus ei olnud võõras, küll aga juhenditega oli palju kergem ja arusaadavam paigaldada (Hennoga juhendeid polnud :,)).

✕ Installation instructions

The screenshot shows the 'Install with a website builder or CMS' tab of the Google Tag Manager installation guide. It provides instructions for installing the Google tag without code changes by using the MonsterInsights plugin. The steps include: 1. Scanning a URL (http://kaldveemaarjaliiskd22.ikt.khk.ee/) to detect the plugin. 2. Copying the tag ID (G-RGMLRM84TL). 3. Following the MonsterInsights plugin instructions to set up the Google tag. A 'Before you begin' section mentions that integration is free for users with a MonsterInsights subscription between \$60 USD and \$400 USD.

✕ Installation instructions

The screenshot shows two steps from a WordPress installation guide. Step 3 shows the 'Plugins' section with a search for 'MonsterInsights' and a click on the 'Install Now' button. Step 4 shows the 'Installed Plugins' list where the 'Google Analytics for WordPress by MonsterInsights' plugin is selected and the 'Activate' button is clicked.
